

END-USER LICENSE AGREEMENT (EULA) FOR MUALO MOBILE APPLICATION

Last Updated: November 24, 2025

1. INTRODUCTION AND ACCEPTANCE

1.1 Agreement

This End-User License Agreement ("EULA") is a legally binding contract between you ("User," "you," or "your") and [Your Name/Organization] ("Company," "we," "us," or "our"), governing your use of the MUALO mobile application ("App"), its reinforcement learning engine, associated services, and educational content.

1.2 Acceptance

By downloading, installing, accessing, or using MUALO, you affirm that you:

Are at least 18 years of age or have reached the age of majority in Rwanda;

Have read, understood, and agree to be bound by this EULA;

Consent to the data practices described in our Privacy Policy and Section 5 below.

1.3 Capstone Project Status

MUALO is currently a beta-stage capstone project. Features, models, and pricing are subject to change without notice. Continued use constitutes acceptance of modifications.

2. GRANT OF LICENSE

2.1 Limited License

We grant you a non-exclusive, non-transferable, revocable license to install and use MUALO solely for personal, non-commercial educational purposes.

2.2 Scope

You may:

Access up to 5 offline lessons and 120 quiz questions in the free tier;

Receive AI-powered skill recommendations from our PPO reinforcement learning model;

Track mastery progress via Firebase-synchronized dashboards.

2.3 Prohibited Uses

You may not:

Reverse engineer, decompile, or extract the Stable-Baselines3 PPO model (mualo_rl_agent_ppo.zip);

Replicate our Kaggle dataset for commercial LLM training;

Remove Rwandan-specific content attribution or `rwanda_focus` metadata;

Share JWT authentication tokens or bypass Firebase security rules.

3. INTELLECTUAL PROPERTY

3.1 Ownership

App Code: React Native frontend, Node.js backend, and FastAPI service are © [Your Name] 2025. All rights reserved.

RL Model: The trained PPO policy is proprietary; underlying Stable-Baselines3 library remains under MIT License (see Section 9).

Dataset: The 120-question JSON file is licensed under Creative Commons BY-NC-SA 4.0 for educational reuse (Kaggle link in slide deck).

Content: Expert-validated explanations and Rwanda-specific legal references are © [Your Name].

3.2 User Contributions

Quiz answers and interaction logs stored in Firestore's `user_answers` collection are your data, but we retain rights to use anonymized metrics for model fine-tuning and research publications.

4. AI-POWERED FEATURES & DISCLAIMERS

4.1 Reinforcement Learning Agent

MUALO's core is a Proximal Policy Optimization (PPO) model that:

Accepts a 12-dimensional mastery vector (observation space: `Box(0.0, 1.0, shape=(12,))`);

Outputs a skill index (action space: `Discrete(12)`);

Optimizes for maximum mastery gain per time step ($\text{reward} = \Delta \text{mastery}$).

4.2 No Guarantees

Skill mastery predictions are probabilistic; actual learning outcomes depend on user effort.

The model is trained on synthetic and limited real cohort data ($n=20$); recommendations may not generalize to all users.

We do not guarantee commercial success, royalty collection, or contract negotiation outcomes.

4.3 Model Limitations

Bias: Training data over-represents Kigali-based artists; rural users may receive less optimal recommendations.

Temporal Drift: Rwandan IP law changes (e.g., RSAU amendments) require periodic retraining.

Max Steps: Episodes automatically terminate at `max_steps = 100` to simulate limited practice time.

5. DATA PRIVACY & FIREBASE USAGE

5.1 Data Collection

We collect via Firebase:

Authentication: Email, UID (JWT tokens);

Interactions: Question ID, `skillIndex`, `isCorrect`, timestamp (`user_answers` collection);

Mastery: Derived scores stored in Firestore `users/{uid}/skillProgress`;

Device: OS version, screen size for UI optimization—no personal identifiers.

5.2 Purpose

Data is used to:

Compute real-time mastery levels (`calculateMastery()` in `quiz.js`);

Generate AI recommendations (`/next_action` endpoint);

Award achievements and track streaks (`DashboardScreen.js`);

Optionally fine-tune the RL model (future work, with explicit opt-in).

5.3 GDPR Compliance

Data Controller: [Your Name], Kigali, Rwanda.

Legal Basis: Legitimate interest (service delivery) + explicit consent (EULA acceptance).

Rights: You may request data export/deletion via `DELETE /update` endpoint or support email.

Retention: Interaction logs kept for 12 months unless deleted sooner.

5.4 Data Localization

Firebase data resides in Google Cloud's europe-west1 (Belgium) region. By using MUALO, you consent to cross-border data transfer under GDPR adequacy.

6. OFFLINE FUNCTIONALITY & SYNC

6.1 Offline Mode

5 lessons cached locally via React Native `AsyncStorage`;

Quiz attempts queued; mastery updates calculated client-side;

Syncs automatically when connectivity > 2G is detected.

6.2 Sync Conflicts

If offline and online mastery vectors diverge, server state wins to ensure consistency across devices.

7. PRICING & PAYMENT

7.1 Freemium Model

Free Tier: Core modules, 120 questions, offline access.

Premium: RWF 5,000/month for advanced certification (not yet implemented).

Enterprise: Record labels pay RWF 50,000/year for cohort analytics (contact for SLAs).

7.2 No Refunds

Fees are non-refundable except where required by Rwandan consumer protection law.

8. TERMINATION

8.1 By You

Delete your account via Settings → Profile → "Delete Account." This removes Firestore users/{uid} but retains anonymized user_answers for research.

8.2 By Us

We may suspend access if you:

Violate Section 2.3 (reverse engineering);

Spam the RL API endpoint (/next_action);

Misrepresent mastery data to unlock achievements.

8.3 Effect of Termination

Your license expires immediately; you must delete all cached content.

9. OPEN SOURCE ACKNOWLEDGMENTS

MUALO includes the following third-party software:

Stable-Baselines3 — MIT

Gymnasium — MIT

FastAPI — MIT

React Native — MIT

Firebase SDK — Apache 2.0

10. DISCLAIMERS & LIMITATION OF LIABILITY

10.1 No Warranty

MUALO is provided "AS IS" without warranties of any kind, express or implied.

10.2 Liability Cap

To the maximum extent permitted by Rwandan law, our total liability shall not exceed RWF 10,000 or the amount you paid in the last 12 months.

10.3 Exclusions

We are not liable for:

Lost royalties;

Device damage;

Academic consequences of relying on recommendations.

11. GOVERNING LAW & DISPUTE RESOLUTION

Rwanda jurisdiction; negotiation → mediation → arbitration.

12. UPDATES & MODIFICATIONS

EULA updates posted at <https://mualo.rw/eula>.

13. CONTACT

Email: support@mualo.rw

14. SEVERABILITY

If any provision is unenforceable, the remainder remains valid.
